

Short bio - George R Lueddeke

(Feb 4 2020)

George Lueddeke PhD MEd Dipl.AVES (Hon.) is an educational advisor in higher and medical education and chairs the global One Health Education Task Force for the One Health Commission (OHC) <https://www.onehealthcommission.org/> and the One Health Initiative (OHI) <http://www.onehealthinitiative.com/>).

Originally from Canada he worked in both northern and southern communities as a teacher, educational manager and developer, and as a program consultant across a wide range of disciplines/professions.

In the UK he has held posts in higher education and in medical education at Southampton University's Faculty of Medicine, receiving the Vice Chancellor Teaching Excellence Award in interprofessional education. As an advisor he has collaborated *inter alia* with the Kent, Surrey and Sussex (KSS) Postgraduate Deanery in London, the UK Centre for Workforce Intelligence, the UK Care Quality Commission, the Association of Schools of Public Health in the European Region, the Commonwealth Secretariat, the InterAction Council, to name several organisations.

Dr Lueddeke has published widely on educational transformation, innovation and leadership. Previous books have included *Transforming Medical Education for the 21st Century: Megatrends, Priorities and Change*, *Global Population Health and Well-Being for the 21st Century: Toward New Paradigms, Policy and Practice*, and *Survival: One Health, One Planet, One Future* (2019). The latter publication is meant to raise awareness and stimulate discussion about today's global issues and to help translate the One Health & Well-Being concept - alongside the UN-2030 Global Goals - into meaningful action on the ground. His most recent contribution to an edited book is a chapter entitled, "Universities in the Early Decades of the Third Millennium (Saving the World from Itself?" (Emerald Publishing [summer 2020]).

Invited as a plenary speaker to different corners of the world, he has presented sessions for such organisations as the UK General Medical Council, the American Medical Association, University 21 (U21) Health Sciences Group (Millennium Goals- Ireland), the Public Health Association of South Africa, Jayewardenepura University (Sri Lanka), Faculty of Public Health (United Kingdom), the Catharina Pijls Lecture on Global and European Health (Annual Maastricht [Netherlands] Symposium), the Global Health Council (USA), School of Veterinary Medicine and School of Clinical Medicine (Cambridge University, UK), the World Veterinary Association and the World Medical Association (Kitakyushi, Japan), the Arab Health Congress (Dubai), the International Schools Association annual Youth Leadership Encounter on Worldwide Migration (United Kingdom), Royal Veterinary College / London School of Hygiene & Tropical Medicine, and Boehringer Ingelheim One Health Symposium (France)....

He is also presently leading the international *One Health for One Planet Education* initiative (1 HOPE) for the OHC/OHI involving all global regions.
