# 19TH ANNUAL CONFERENCE ON VACCINE RESEARCH

APRIL 18-20, 2016 | BALTIMORE, MD

National  
Foundation for  
Infectious  
Diseases

7201 Wisconsin Avenue  
Suite 750  
Bethesda, MD 20814

Nonprofit Org.  
U.S. Postage  
PAID  
Dulles, VA  
Permit No. 3

## CONFERENCE OVERVIEW

As the premier venue for cutting-edge research, effective data sharing, and scientific collaboration on issues related to vaccines and immunization, the 2 ½ day conference features international experts leading symposia and interactive panel discussions.

## WHO SHOULD ATTEND

The conference is targeted to US and international attendees including:

- Epidemiologists
- Health Economists
- Healthcare professionals
- Public health officials
- Researchers
- Scientists
- Trainees
- Vaccine diagnostic, and device manufacturers
- Veterinarians

## ACCREDITATION

The National Foundation for Infectious Diseases is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

## ABSTRACT CATEGORIES

- Adjuvants and immunomodulators
- Antigen design and development
- Clinical studies and field trials
- Epidemiology and burden of vaccine-preventable diseases
- Immunization programs, policies, and regulatory issues
- Immunologic science
- Preclinical studies including animal models
- Routes and methods of antigen administration
- Vaccine delivery systems
- Vaccine manufacturing and production
- Vaccine safety and public perception
- Vaccines for new and emerging pathogens
- Vaccinology for veterinary and agricultural indications
- Other topics related to vaccines and immunization

## SPECIAL SESSIONS/AWARDS:

NFID Luncheon featuring the Robert Austrian Memorial Lecture and presentation of the Charles Mérieux and Maurice R. Hilleman Early-Stage Career Investigator Awards

## SHOWCASE YOUR RESEARCH

NFID is accepting abstract submissions for the 2016 conference through **December 1, 2015**. Poster abstracts are eligible for the **Maurice R. Hilleman Early-Stage Career Investigator Award** recognizing individuals in the early stages of their careers in any field of vaccinology. To view eligibility requirements and submit an abstract, visit [www.nfid.org/acvr](http://www.nfid.org/acvr).

## CONFERENCE HIGHLIGHTS

- Combatting Antimicrobial Resistance with Vaccines
- Ebola: Lessons Learned
- Emerging & Re-emerging Diseases
- HIV Vaccines & Passive Immunity
- Maternal Immunization
- Vaccines in the Pipeline (Closing session)
- Vaccine Introduction, Implementation, and Utilization

*Mary Lou Clements-Mann Memorial Lecture in Vaccine Sciences: Systems Vaccinology: Probing the Human Immune System with Vaccines, presented by Bali Pulendran, PhD, Emory University*
