Eminent Virologist Joins One Health Initiative Team’s Honorary Advisory Board

The One Health Initiative Autonomous *pro bono* team is delighted to announce that Dr. Fredrick A. Murphy, a veterinarian, has accepted becoming a member of the team’s Honorary Advisory Board <http://www.onehealthinitiative.com/advBoard.php> on September 5, 2013. He said, *“It would be my great honor to accept your invitation to join this illustrious board.”* The Advisory Board was established in 2010 and now has 30 distinguished members from within the U.S. and worldwide.

Frederick A. Murphy, DVM, PhD http://www.utmb.edu/pathology/faculty/murphy/murphy_bio.htm is presently a Professor at the University of Texas Medical Branch, Department of Pathology, Galveston, Texas (USA). His most recent remarkable literary contribution to the dynamic history of virology was a 2011 landmark book entitled “The Foundations of Virology Discoverers and Discoveries Inventors and Inventions Developers and Technologies”: See <http://www.utmb.edu/virusimages>.

Dr. Murphy and **Karl M. Johnson, MD**, a physician, worked at the U.S. Centers for Disease Control and Prevention (CDC) as co-equal investigators, together discovering the etiologic agent of Ebola hemorrhagic fever, the Ebola virus among many other extraordinary One Health collaborations. **Dr. Johnson** has said, “Fred Murphy and I collaborated on zoonotic viruses, their pathogenesis, epidemiology and ecology...our work over many years truly exemplifies the concept of One World, One Medicine, One Health.”

Dr. Murphy is a longstanding One Health supporter/advocate. See <http://www.onehealthinitiative.com/supporters.php> and <http://www.onehealthinitiative.com/endorsements.php>.
