Infection Ecology & Epidemiology (IEE) is an Open Access peer-reviewed scholarly journal that aims to be a truly international forum for the free exchange of original, cross-disciplinary, high quality papers from researchers in multiple medical and ecological disciplines engaged in describing the complexity of zoonotic infections and the interface between wild and domestic animals, and humans.

Topics of interest include, but are not limited to:

- ◆ Zoonotic microorganisms
- ◆ Vector borne infections
- ◆ Gastrointestinal pathogens
- ◆ Antimicrobial resistance
- ◆ Zoonotic microorganisms in a changing environment

Infection Ecology & Epidemiology is affiliated with the Infection Ecology & Epidemiology Network based in Uppsala, Sweden.

Target groups:

- ◆ Veterinarians
- ◆ Physicians
- ◆ Molecular biologists
- ◆ Ecologists
- ◆ Environmental chemists with an interest in zoonotic infections
- ◆ Epidemiologists
