Lisa A. Conti, DVM, MPH, DACVPM

Thursday, June 21, 2012, 9:00 am – 4:30 pm
The Essex, Essex VT

**One Health: Where Humans, Animals and the
Environment Overlap**

Stories from the field: the critical role of preparedness in practice

Emerging Pathogens: what the practitioner needs to know

Rabies: an ancient disease with modern implications

Poo, Goo and You: A Parasite Review

Dr. Lisa Conti is the former Director of the Division of Environmental Health, Florida Department of Health and is Associate Professor of Pathobiology at the University of Florida's College of Veterinary Medicine. She joined the One Health Initiative team of Laura H. Kahn, MD, MPH, MPP, Bruce Kaplan, DVM, Thomas P. Monath, MD, and Jack Woodall, PhD on January 26, 2012. In that capacity, she helps co-manage the One Health Initiative website www.onehealthinitiative.com, in addition to participating in the team's numerous One Health projects. As a recognized international One Health leader, author and speaker, Dr. Conti is co-author/editor of a "first of its kind" landmark One Health textbook with the prominent American public health physician at Yale Medical School, Dr. Peter M. Rabinowitz, entitled "Human-Animal Medicine – *Clinical Approaches to Zoonoses, Toxicants and other Shared Health Risks.*"

The cooperation of health care professionals, both veterinary and medical, is essential to ensure global health. Please join the Vermont One Health Task Force as we embark on this critical mission. Registration will be available in the spring. For more information, contact the Vermont Veterinary Medical Association at Kathy@vtvets.org, visit www.vtvets.org, or call 802-878-6888.
