Dear One Health Team

On behalf of the Faculty of Veterinary Medicine at the UANL in Mexico, it is my pleasure to express our shared ideals of the One Health Initiative. Our faculty members are convinced that in order to cope with the new global challenges we must consider the interactions among humans, animals and the environment. As partners in this endeavor we are committed to support the One Health mission and would strive to encourage other schools in our country to participate.

Sincerely,

Juan Jose Zarate Ramos, BVetMed, MSc, Dr.
