“One Health is the collaborative efforts of multiple disciplines working locally, nationally, and globally to attain optimal health for people, animals, plants and our environment.”

“One Health implementation will help protect and/or save untold millions of lives in our generation and for those to come.”

“Between animal and human medicine there are no dividing lines--nor should there be.” Rudolf Virchow, MD (the father of cellular pathology)

One Health in Action...

Prominent One Health Initiative Public Health Experts Quoted in Canadian News Article

The One Health Initiative Autonomous *pro bono* Team member **Thomas P. Monath, MD**

<http://www.onehealthinitiative.com/publications/Tom%20Monath%20Biography%20June%202013.pdf> and **Michael T. Osterholm, PhD, MPH**

<http://www.cidrap.umn.edu/about-us/cidrap-staff/michael-t-osterholm-phd-mph>, a distinguished member of the OHI Team's Honorary Advisory Board

<http://www.onehealthinitiative.com/advBoard.php>, were quoted in a Canadian CTV News item September 10, 2013. The article was published by The Canadian Press and written by the well known and respected medical reporter Helen Branswell

<http://pulitzercenter.org/people/helen-branswell>. It discussed the potential for developing a human Middle Eastern Respiratory Syndrome (MERS) vaccine

<http://www.cdc.gov/coronavirus/mers/>.

Drs. Monath and Osterholm indicated that they support the idea for developing a vaccine for camels. They prefer steering the current vaccine work towards an animal product if feasible for various reasons.
