

The One Health Interest Groups of
Washington University in St. Louis,
School of Medicine &
St. Louis University invite you to attend

***The Big Bet:
How Linking Human and Veterinary Medicine
Improves Health Across Species***

Friday, March 11, 2016: 11:45 — 12:45 PM
Farrell Learning and Teaching Center— Holden Auditorium

Panelists include:

- Andrew M. Hoffman, DVM, DVSc, DACVIM, Director of the Regenerative Medicine Laboratory, Tufts University, Cummings School of Veterinary Medicine
- Sharon L. Deem, DVM, PhD, Director, Institute for Conservation Medicine, Saint Louis Zoo
- David T. Curiel, MD, PhD, Director, Biologic Therapeutics Center, Washington University in St. Louis, School of Medicine
- Carolyn J. Henry, DVM, MS, Associate Dean for Research and Graduate Studies, College of Veterinary Medicine, University of Missouri, Columbia
- F. Matthew Kuhlmann, MD, Instructor, Division of Infectious Diseases, Washington University in St. Louis, School of Medicine

About the talk:

Veterinary science and human medical science can combine to achieve efficiencies that translate across species. This is already happening through ongoing cross-disciplinary collaborations among veterinarians, physicians and scientists. Panelists will give an overview of current progress in the One Health movement and speak candidly about its impact on medicine. There will be a dedicated Q & A at the end of the session.

Sack lunch provided through generous support by the

Space is limited to 75 people.

Register via Eventbrite [here](#).
